

## **Questions & Answers**

In this section we will hopefully answer some of the questions you may have. If you wish to clarify any other matter, please [contact us](#).

### **How big is the Formula 1 car?**

The actual size of the car is exactly the same as a Formula 1 car. Length is 4.84 metres, width is 1.80 metres and it is 1.15 metres high.

### **How much space is required?**

It depends on the situation. Being realistic, the minimum space would be approximately 10 x 5 metres.

### **What about access to hotels, exhibition halls etc?**

Most large venues have sufficient access, but we will of course clarify accessibility before confirming a booking.

### **Can we take photographs?**

Of course you can, we want you to enjoy the whole experience and what better memory to have than a photograph whilst sat in the car.

### **Can children drive the simulator?**

Unfortunately not, but to ensure they don't miss out, children are very welcome to have their photograph taken in the car.

### **Can I view my lap times?**

We have linked up with a software developer who has written a programme allowing the lap times to be viewed on our website [www.tangerine-promotions.co.uk](http://www.tangerine-promotions.co.uk) After each event all the lap times will be downloaded to the leaderboard section on our website so you can frequently check how your times fared against colleagues or any other driver.

### **How long can the car be hired for?**

As long as you want. Typically, it will be for one or two days hire but, should you require the car/simulator for longer please contact us and we provide a quotation.

### **Will you travel anywhere in the UK?**

If we can get there, in a word, Yes.

### **How authentic is the car?**

The cars are manufactured from the same body mouldings used by the Formula 1 teams in production of their F1 race cars. The build quality of the chassis combined with the modern bodywork produce a realistic recreation of a Formula 1 car. To see more technical information [click here](#).

### **Are there any sound effects?**

There is an inbuilt 5.1 speaker system which provides stunning sound effects.

### **Are there differing degrees of difficulty of driving?**

There is a variety of different settings on the simulator which can be changed according to your skills.

**Which Grand Prix circuits can I drive around?**

Any of the circuits in the current F1 calendar.

**What events can the car be hired for?**

There are numerous events for which the car and simulator can be used. Please [click here](#) to see our services.

**What is the cost of hiring the car/simulator?**

Depending on your exact requirements, daily hire starts from £500. To view our charges schedule [click here](#).
